An Open Letter to New York City Mayor Bill DeBlasio:

## **Stop Your Vicious Pogrom In Williamsburg Now!**

Your “Measles Emergency” is a Huge Hoax

Rabbi William Handler

May 6, 2019

Mr. Mayor: You are guilty of a despicable “Hate Crime,” demonizing helpless Hasidic Jews in New York City with your fake “Measles Emergency.” You are putting the lives and the safety of all Hasidim at risk. Didn’t you learn anything from the massacre of the Chabad Hasidim in Poway, California? Already, just this weekend, there was an unprovoked attack on Hasidim in Williamsburg by a gang of thugs, yelling “You #### Jew!”

**You have blood on your hands. You are falsely and very publicly demonizing the Hasidim in Williamsburg as dangerous carriers of “The Red Death.”**

At the same time, you are completely ignoring the really deadly diseases being brought into New York City by completely unscreened illegals from Central America, who are flooding the City and crowding the subways, the schools, and the hospitals.

You, and your make-believe Health Commissioner Oxymoron Bardot, have chosen to completely ignore the threat of the really dangerous diseases—like tuberculosis and polio—brought here by these illegals, who are protected by your “Sanctuary City” policy.

**Measles in the United States has been a normal, perfectly safe childhood disease since the 1950’s, when its death rate declined by 98%, as documented in the professional medical literature.**

**And, in addition, medical research has proven that children who get the measles enjoy lifetime immunity, unlike those who get the vaccine. In addition, medical research has also proven that those who get measles are assured of enhanced immunity to heart attacks and cancer.**

The MMR-II measles, mumps, and rubella shot, which you are so assiduously promoting is unproven and dangerous. Over the last 10 years, 105 children have died after receiving this shot, as documented in the Federal Government's VAERS reporting system. And, because VAERS is only a voluntary reporting system, its reports document only 10% of the adverse effects of this ineffective and dangerous vaccine.

The measles vaccine that you are forcing on everyone in Williamsburg cannot stop the measles outbreak, according to vaccine expert **Dr. Gregory Poland of the Mayo Clinic** (who is also editor of the prestigious medical journal **Vaccine**). Dr. Poland writes that: "Measles outbreaks occur even among highly vaccinated populations, because of primary and secondary vaccine failure." So, according to Dr. Poland, the measles vaccine is a flop! It fails to provide "Herd Immunity."

**Enough of your BS—Stop your Pogrom, already.**

**Leave Williamsburg alone.**

**Go to New Hampshire, and run for President!**
